Summer of Code • [Pre GSoC]

- [Work done]
 - [ButterKnife to ViewBinding]
 - [Dagger2 to Hilt]
 - [MVP to MVVM]
 - [Unit tests for ViewModels & Repositories]
 - [Implementing Coroutines]
 - [SQLite to Room]
 - [Xml to compose view]
- [Scope of work]
- [Impact]
- [Conclusion]

Mifos Initiative

Butterknife to ViewBinding

- Mifos mobile project was heavily dependent on ButterKnife hence we needed a better alternative to streamline the process of binding xml layout views to our kotlin code
